Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Summary of significant accounting policies and other explanatory information to the financial statements as at and for the year ended 31 March 2025

1 Significant Accounting Policies

1.1 Basis of preparation of financial statements

The financial statements are prepared on going concern basis in accordance with Generally Accepted Accounting Principles in India (GAAP) and comply in all material respects with the Accounting Standards specified under section 133 of the Companies Act, 2013, read with Rule 7 of the Companies (Accounts) Rules, 2014, and Companies (Accounting Standards) Amendment Rules, 2016 and the relevant provisions of the Companies Act, 2013.

1.2 Historical Cost Convention

The financial statements have been prepared on an accrual basis and under the historical cost convention. The accounting policies adopted in the preparation of financial statements are consistent with those of previous year.

1.3 Use of estimates

The preparation of financial statements requires the management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent liabilities as at the date of the financial statements and the reported amount of revenue and expenses for the year. Actual results could differ from these estimates. Any revision to such accounting estimates is recognized prospectively in current and future periods.

1.4 Property, plant and equipment

All items of PPE are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Cost includes its purchase price including non-refundable taxes and duties, directly attributable costs of bringing the asset to its present location and condition and initial estimate of costs of dismantling and removing the item and restoring the site on which it is located.

Subsequent costs are included in the carrying amount of PPE or recognised as a separate PPE, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred.

1.5 Depreciation

The Company depreciates its PPE over the useful life in the manner prescribed under Part C of Schedule II to the Act. Depreciation commences when the assets are ready for their intended use and is computed on pro-rata basis from the date of installation/ acquisition till the date of sale/ disposal. Management believes that useful life of assets are same as those prescribed in Schedule II to the Act.

1.6 Inventories

Inventories are valued at lower of cost or estimated net realisable value. As on 31st March Company does not have any inventory in its books.

1.7 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable net of discounts, returns and rebates taking into account contractually defined terms and excluding taxes or duties collected on behalf of the government.

- a) Sales are recognised when substantial risk and rewards of ownership are transferred to customer as per the terms of contract. No revenue is recognised if there are significant uncertainties regarding recovery of the amount due, associated costs or the possible return of goods
- b) Interest income is accrued on a time proportion basis, by reference to the principal outstanding and the applicable effective interest rate.
- c) Dividend income from investments is recognised when the shareholder's rights to receive payment have been established.

1.8 Investments

- a) Company does not have any long term investment as on 31st March 2025.
- b) Current investments are stated at lower of cost and fair market value determined on an individual investment basis. Long-term investments are stated at cost less provision for diminution other than temporary in the value of such investments.

1.9 Borrowing costs

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing.

1.10 Employee benefits

Company does not provide any Employee benefit provision in financials as company does not cross the required limit of no of Employees.

1.11 Accounting for taxes on income

- a) Current tax is determined as the amount of tax payable in respect of taxable income for the year as per the provisions of the Income Tax Act, 1961.
- b) Deferred tax is recognized, subject to consideration of prudence, on timing difference, being the difference between taxable incomes and accounting income that originate in one period and are capable of reversal in one or more subsequent periods and measured using relevant enacted tax rates.

1.12 Operating lease A. Where Co is lessee

Lease of assets under which all the risk and rewards of ownership are effectively retained by the lessor are classified as operating leases. Lease payments under operating leases are recognized as an expense on accrual basis in accordance with the respective lease agreements.

B. Where Co is lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight line basis over the term of the relevant lease.

1.13 Foreign currency transactions

Transactions in foreign currencies are recognised at the prevailing exchange rates on the transaction dates. Realised gains and losses on settlement of foreign currency transactions are recognised in the Statement of Profit and Loss.

Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in the Statement of Profit and Loss.

1.14 Earnings per share

Basic earnings per share are computed by dividing the profit / (loss) after tax by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for the events for bonus issue, bonus element in a rights issue to existing shareholders, share split and reverse share split (consolidation of shares). Diluted earnings per share is computed by dividing the profit / (loss) after tax as adjusted for dividend, interest and other charges to expense or income (net off any attributable taxes) relating to the dilutive potential equity shares, by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

1.15 Provisions

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

1.16 Contingent Liabilities and Contingent Assets

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases, where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements unless the probability of outflow of resources is remote.

1.17 Impairment of property, plant and equipment

At each balance sheet date, the Company reviews the carrying amount of assets to determine whether there is an indication that those assets have suffered impairment loss. If any such indication exists, the recoverable amount of assets is estimated in order to determine the extent of impairment loss. The recoverable amount is higher of the net selling price and value in use, determined by discounting the estimated future cash flows expected from the continuing use of the asset to their present value.

1.18 Current and Non-current Classification

All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle (Twelve months) and other criteria set out in Schedule III to the Act.
